E. Other Secondary Data Sources

In addition to sources of data already cited, the Carter County Health Council used information from other various sources, weighing the information and statistics analyzed against county demographics, manpower information, managed care information, and utilization information. Currently, the council continues to assess more and more current information from these additional sources in planning and reassessment of changes in the health of the community.

Some of the additional sources of information referenced within this document and which continue to contribute to the council's diagnosis of health status and health care in Carter County include: the First Tennessee Development District "FACTS" Publication; the Tennessee Commission on Children and Youth "Kids Count" report; the U.S. Department of Commerce/Bureau of the Census; the Tennessee Department of Health (TDH) Office of Health Statistics & Information; the TDH & University of
